GAS TAX BOOST BEATEN IN LANSING

NO CUT MADE BY SENATE IN RELIEF FUNDS

U. S. TO PLAY LONE HAND IN FOREIGN PROGRAM

Washington, May 14 (AP)—The Senate voted resoundingly today, 79 to 4, to grant the full \$350,000,000 asked to relieve suffering abroad.

It rejected a house plan to hold the sum of \$200,000,000 and likewise left out house-voted restrictions on aid to Communist dominated countries.

The senate bill does carry, however, a requirement that the food and medicine be clearly shown to have come from the U.S.A.

The legislation now goes to a senate-house conference committee for adjustment of the differences. Besides the money difference there is the House requirement that no aid go to any Communist-dominated countries unless they agree to rigid U.S. supervision of the distribution of the relief.

Countries Not Designated

Countries to be aided are not named in the senate bill but Secretary of State Marshall has said that the main bulk of relief will go to Austria, Greece, Hungary, Italy, Poland, China and Trieste. He said not more than \$15,000,000 should be available elsewhere.

In undertaking the lone-handed relief, the United States will be taking up where the United Nations Relief and Rehabilitation Administration is leaving off. Under UNRRA, there were many complaints that relief was used for political purposes and that the heavy contributions of the United States were sometimes credited elsewhere.

Just before the vote on final passage, the Senate turned down 64 to 19 roll call vote Senator Kem's (R-Mo) amendment which would have cut the amount to \$200,000,000.

Senator Vandenberg (R-Mich), chairman of the foreign relations committee, told his colleagues the small amount would not be sufficient to meet the urgent needs even in Greece, Italy and Austria.

"It would be the same as throwing a ten-foot rope to a man drowning 15 feet offshore," he said.

Slap at Russia Loses

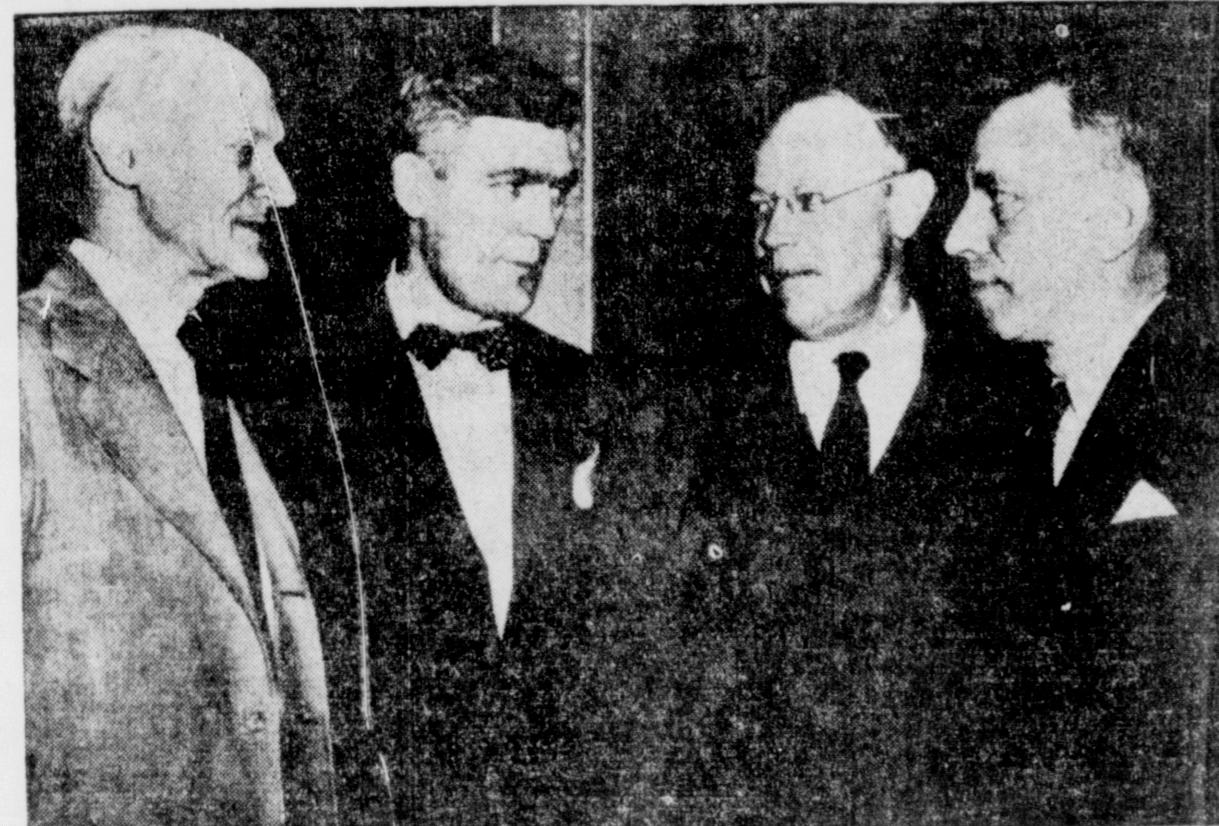

The ranking Democrat on the committee, Senator Connally (D-Tex), pleaded, "if we are going to do this job at all let's do it. Let's not half do it."

Turned down on a voice vote was a proposal by Senator McClellan (D-Ark) which would have denied any of the aid to Russia or any country "under the economic or political domination" of the Soviet.

On final passage only McClellan and one other Democrat, Senator O'Daniel of Texas, and two Republicans, Bushfield of South Dakota and Williams of Delaware, voted against the bill.

The measure is one of two key

GERMANS VOTE STRIKE MAY 22

Labor Chiefs Angered By Food Pinch Call Factory Walkout

BY RICHARD O'REGAN

Frankfurt, Germany, May 14 (AP)—Stuttgart factory labor leaders, in the first major strike action in the American occupation zone, voted angrily today to call a general walkout May 22 unless the German food crisis is solved immediately.

The strike threat came a few hours after Gen. Lucius D. Clay, American military governor, predicted at a news conference here that the "desperate" crisis would be alleviated in a few weeks, and warned that any "political agitator" who stirred up trouble would be jailed.

The Stuttgart shop chairman also demanded a 40-hour work week, asserting that factory employees had been so weakened by reduced food rations that they could not work 48 hours.

A succession of German speakers sharply criticized American food policies.

One chairman asserted that interned Nazis were receiving 1,700 calories of food a day, while many free Germans were getting only 600 to 700 calories."

Germans are supposed to get 1,550 calories, which is considered minimum need for an extended period.

Driver Runs Down Girl, Attacks Her; Sentence 15 Years

Omaha, May 14 (AP)—A young Omaha accused of swerving his car to the sidewalk and running down a mother and her daughter, and then dragging the girl to some bushes and attempting to attack her, today was sentenced to 15 years in the state penitentiary.

District Judge James T. English levied the maximum sentence against John L. Cox shortly after the 21 year old Army private pleaded guilty to a charge of assault with intent to commit rape.

Cox was arrested after Mrs. Ernest Swanson and her daughter, Marjorie, 20, were struck by the car Friday night. He resolutely maintained his innocence through several days questioning but yesterday signed a statement admitting stealing the car, running down the two women and attempting to attack Miss Swanson, detective Inspector Fred Franks said.

Midwest Weather
Returns To Normal;
Shower Promised

BY THE ASSOCIATED PRESS

A return to normal weather was in prospect for the midwest Thursday after a brief cool spell that brought freezing temperatures from Wisconsin eastward to New England.

Temperatures moved swiftly up in the western section of the cold belt, readings in the mid-eighties being recorded in Iowa. Widely scattered showers were expected to accompany the warmer air mass.

Continued chilly weather was forecast for New England.

Mostly fair weather covered the southern plains and gulf states, where temperatures were rather warm. High readings of between 80 and 83 prevailed throughout Texas northward into Missouri and Kansas, and the central gulf states had average maximums of between 80 and 83.

AWARD FOR SNYDER
Washington, May 14 (AP)—Secretary of the Treasury John W. Snyder was awarded the medal for merit today, in a surprise White House ceremony, for his part in the "successful prosecution of the war."

Soviets Call On U. N. To Push Independent Jewish-Arab Regime

BY LARRY HAUCK

New York, May 14 (AP)—Soviet Russia called on the United States today for creation of an independent Jewish-Arab government in Palestine.

The Arabs immediately retorted that such a dual state would be impossible unless barriers were kept up against Jewish immigration into the Holy Land. The Jewish agency for Palestine said it had not comment.

Linking his suggestion with a vigorous attack on Britain's ad-

ministration of the Palestine man-

date, deputy foreign minister Andrei A. Gromyko told the general assembly that the only other acceptable solution would be partition of Palestine into separate Jewish and Arab nations.

The Arabs have opposed partition. The Zionists have indicated acceptance of such a plan as a basis for discussion.

The long Soviet speech touched off extended debate and retarded the weary assembly on its drive toward adjournment.

Before quitting the 55 delegates must approve a political committee plan for setting up and instructing an 11-nation investigation commission to report on the entire Holy Land problem.

In the midst of the heated discussions, Norway brought forth a resolution calling on all parties to the Palestine problem to declare a truce for the duration of U. N. deliberations. The move asked for parties to refrain from threat of force or any other action which might affect the problem."

The truce plea came here as explosions rocked areas in northern and southern portions of Palestine.

Russia's address came as the Arab countries indicated they would give up their floor fight against the inquiry commission, which they insist should be specifically instructed to consider independence now.

At the same time authorities sought two men who checked out of a downtown hotel last Friday after a maid found a cache of small arms in their bedding.

The pair had registered from Chicago, but chief of detectives Jack Harvill said they had given fictitious addresses and "might have been from any place but Chicago."

Karallee surrendered to police to report meeting Barakay Monday night to arrange for collection of a \$140 wager on last Saturday's Preakness, Harvill said.

Afterwards, Karallee said he accompanied Barakay and Mrs. Dorothy Cole, 33, to a bowling alley-bar. He said he was still in the bar when Barakay and Mrs. Cole left.

Baby Wrong Sex;
New York Hospital
Sued For \$200,000

New York, May 14 (AP)—A Bronx couple today accused a municipal hospital of substituting a boy for a girl following their child's birth here, but hospital commissioner Edward M. Berneker termed the matter a "clerical error."

The couple, Mr. and Mrs. Leonard Sosa, Puerto Ricans, made the charge in a claim for \$200,000 damages filed against the city with the corporation counsel and the city comptroller.

The couple took the boy home from the hospital. Mrs. Sosa said "we like him, but he is not ours. We can give him no name. He is sickly, not like my strong girl."

Mrs. Sosa said a girl was brought to her at the hospital for seven days after the birth March 13, but that on March 21 a nurse brought the boy instead.

END OF PHONE STRIKE IS NOT YET IN SIGHT

PICKETS DWINDLE AROUND PLANTS IN MICHIGAN

Washington, May 14 (AP)—The nation's telephone strike dwindled further today, but a complete end to it was not yet in sight.

Amid hopes for new wage offers from both sides soon, conciliators today put off until tomorrow negotiations between Western Electric and 20,000 striking workers of this big Bell Telephone system affiliate.

Separate talks are being conducted with the Western Electric Employees association, which has 22,000 members in 21 plants. The latter recessed until tomorrow.

A company wage offer to the ACEW was rejected last night but the union altered its demands and indications were the two sides were closer together than at any time since the strike began.

FEW OPERATORS RETURN

Detroit, May 14 (AP)—The Michigan Bell Telephone Co. reported dwindling picket lines around its plant today as a strike of 18,000 employees moved past its 38th day.

The company said it counted 368 pickets at 51 buildings throughout the state in contrast to a peak of 1,400 strikers on duty at 127 buildings.

Michigan Bell added that a few long-lines operators and plant employees were trickling back to their jobs in the wake of last week's settlement of the long distance strike.

However, long distance service within Michigan is still on an emergency basis, the firm emphasized.

An explosion damaged company property between Manchester and Chelsea, four miles south of US-12 in Washtenaw county early today, and a spokesman said 10 phones and two teletype circuits were disabled. This company source stated state police as saying dynamite may have caused the blast.

Negotiations Stalled

Meanwhile, in Detroit, negotiations between the company and its 13,000 operators remained stalled with no new conferences scheduled.

Federal mediator E. M. Sconyers termed the company's attitude "a serious obstacle to conciliation efforts" after Michigan Bell rejected a union settlement proposal calling for \$3 to \$5 in weekly wage increases.

The company has made a single offer of a \$2 to \$4 weekly boost since the strike began in an original union demand for a \$12 weekly pay hike.

An estimated 5,600 plant employees were being polled on a tentative settlement plan reached late Tuesday. Terms were not announced.

However, union leaders said that even if the proposals are accepted, the plant workers will not cross the operators' picket lines.

Both groups are affiliates of the National Federation of Telephone Workers, an independent union.

WALLACE RAPS TRUMAN POLICY

Europe's Misery Made Political Football, Audience Told

Chicago, May 14 (AP)—Henry A. Wallace declared tonight that "the administration is playing politics with the misery of Europe" and advocated a \$150,000,000 program of American exports and investments throughout the world.

The only hope for peace "is a major effort to restore the world economy by the use of American resources," the former vice president and cabinet member said in a speech at a meeting sponsored by the Illinois chapter of Progressive Citizens of America.

"The Truman doctrine may not lead to war, but it will never lead to peace," Wallace declared.

"In all Europe I found only one group—the group of extreme right wingers led by Winston Churchill, who were ready to defend the Truman doctrine," Wallace said.

He defined the "Truman doctrine" as a "doctrine of unlimited aid to anti-Soviet governments," and added, "I predict that one day we shall bitterly regret the action that congress has taken."

Film Company Fire Kills 18 In Rome

Rome, May 14 (AP)—Police and fire authorities said they believed as many as 18 persons died in a fire which swept the Minerva Film company building here today.

The fire followed two heavy explosions and raged for six hours. Many of the dead were company employees who died of asphyxiation or were killed jumping from windows.

The picture, "Song of Russia," was made in 1943.

Taylor served as a navy flier during the war.

Portal Pay Killed; Truman Pleads For 65c Minimum Wage

BY JOHN B. OWEN

Washington, May 14 (AP)—President Truman today signed a bill to erase most portal-to-portal claims, past and future, and pleaded anew that the minimum wage be increased from 40 to 65 cents an hour.

In a message to Congress announcing he had approved the bill "in the interest of the economic stability of the nation," Mr. Truman said:

1. Asked that the wage-hour law be extended to "many persons not now protected" by it.

2. Announced that the portal back pay under the wage-hour law. This law sets a 40 cent minimum wage in interstate industry and requires payment of time and a half after 40 hours a week. An employer risks heavy damages if he violates the law. The portal suits were based on a supreme court decision that an employer may be liable for nonproductive activities performed during time under his control. These include such things as walking to the worksite, sharpening tools, etc.

Mr. Truman wrote that judicial interpretation had "raised the possibility that employers might be required to pay back wages for certain activities which in most industries had not previously been considered by either workers or employers to be compensable."

"I believe that, in the interest of the economic stability of our nation, it is essential to clarify this matter by statute," he added.

The bill would outlaw most portal suits now on court dockets and would outlaw nearly all future suits. While the total of the suits at one time approximated \$6,000,000 many were withdrawn after the key case—involving CIO pottery workers at Mount Clemens, Mich.—was dismissed at the union's request.

Shrinking them from further tax levies, the Senate sent back to its taxation committee a bill to double the tax on beer and defeated 14 to 16 a bill to reduce the liquor discounts allowed bars from 15 to 10 per cent and permit the state to regain the 10 per cent special liquor tax imposed for the local government. The latter was placed on the table then, whence it may be lifted again.

Starting with a declaration from Rep. Maurice E. Post, veteran Rockford Republican, against the measure as "ill-advised at this time," the support slowly washed away.

Liquor Levies SIDESTEPPED

14TH STREET LIGHT DELAYED

Relay Switch Will Be
Installed To Fire
Department

Installation of new traffic control lights at the intersection of Ludington and 14th streets, originally planned to be made this week, will be delayed until next week, Chief of Police M. F. Effenhofer announced yesterday.

The police chief reported that a relay switch will be installed from the 14th street light to the fire hall to facilitate the movement of fire fighting vehicles to the west and north sections of the city. The relay switch will permit firemen at the fire hall to throw the 14th street light continuously on green for Ludington street traffic when a fire call is received west and north of 14th street.

The 14th street traffic lights will be synchronized to the 10th street lights, the police chief reported. A manual switch will be installed at 10th street to permit patrolmen to maintain a green light for Ludington street during parades and on similar occasions when uninterrupted traffic on Ludington street is desired.

**Deputy Sheriff
Apprehends 2
Suspicious Men**

Thanks to the quick, efficient work of Deputy Sheriff Andrew Vescoloni, of Hermansville, two men alleged to have been driving a car stolen from Schoolcraft, Kalamazoo county, Mich., are in the custody of state police.

It all happened yesterday afternoon after Vescoloni received a call from Powers at 1:30 that two suspicious-looking men had stopped there to fix a flat tire.

When the deputy questioned the men, state police said, one of them "pulled a knife on him." Whereupon Vescoloni held them at the point of his revolver until troopers

CHICAGO

Not Much Help

DECISION by the agriculture department to validate the next sugar ration stamp, Spare No. 12, on June 1, a month earlier than previously contemplated, is designed to encourage an earlier movement of sugar supplies from eastern refineries to consumers throughout the country.

Just how this bit of shuffling will accomplish the desired objective, however, is somewhat difficult to understand. The current sugar stamp, Spare No. 11, is not being cashed by consumers as rapidly as the government had hoped, with the result that sugar supplies are piling up in eastern refinery warehouses. The government wants to get the supplies moved to consumers before transportation facilities are overtaxed by the movement of wheat and other commodities in midsummer.

Consumers are holding on to their present sugar ration stamps as long as possible because they hope to save a few pounds for canning purposes when fresh fruits become abundant in the summer. By what reasoning does the government figure that consumers will cash their next stamp, Spare No. 12, early when the consumers are now holding on to the currently valid stamp, Spare No. 11?

Obviously the only way that the sugar surplus can be moved quickly to consumer pantries is to validate an extra stamp, a bonus stamp good for a limited period of time. Since supplies are considerably greater than previously anticipated, it appears logical that additional allotments can be made to consumers under a system that would encourage them to purchase the extra sugar now.

Moving the validation date of the next sugar coupon up one month is not going to help much, particularly in view of the fact that the allotment will have to last five months instead of four.

State Rejects Property Tax

REJECTION by the Michigan senate of a bill designed to take for the state one mill of the local property tax will be met with general approval by state taxpayers. Since the advent of the sales tax a number of years ago, property taxes have been left exclusively for the use of local governmental units and it is well to continue that policy.

The state has authority to meet its financial problems by levying other taxes but local units must rely mainly on the property levies, plus state grants, for their financial needs.

The plan to appropriate \$96,000,000 in state aid to schools instead of the \$114,000,000 that the schools claim is due to them is based upon the use of the 1945-46 state appropriation instead of the 1946-47 appropriation as a guide in determining the intent of the sales tax diversion amendment.

The schools naturally will fight the adoption of the lesser appropriation but from the long range view, the acceptance of the \$96,000,000 state aid grant instead of the higher figure is in the public interest. As sales tax receipts decline as they are bound to do in deflationary periods, the use of the lesser base in figuring the state aid distribution will alleviate to the extent the financial problem with which the state will be confronted. Insistence upon the higher base would be harmful even to the schools in the end because it probably would bring about a determination to repeal the sales tax diversion on amendment.

Even as the situation stands now, the state is obligated to adopt many new taxes that will not be popular with Michigan residents, taxes that have become necessary because of the sales tax diversion and the veterans bonus amendments.

Banning Public Strikes

THE right of public employees to strike will be prohibited in Michigan if a measure already adopted by the state house of representatives becomes law.

The bill was passed by the house Tuesday by the overwhelming margin of 76 to 11. Its approval in the senate is probable.

Legislation to prohibit strikes by public employees has been suggested in previous sessions but never materialized. Governmental employees, whether state, county, city or school, perform services that are vital to public welfare. The performance of these vital governmental services cannot be left to the whims of labor leaders who have all too often shown an utter disregard of public welfare.

In denying public employees the right to strike, however, governmental units also must assume responsibility for fair treatment of their employees in the matter of wages and working conditions. In general, governmental units have shown a disposition to be fair in dealings with their employees.

Such services as those performed by firemen, policemen, street crews, public utilities operators and school teachers are essential to society and disruption of these services even for a brief time endangers

public welfare. It is in recognition of that fact that the bill now before the legislature should be enacted into law.

Schacht Convicted

JALMAR SCHACHT, the German financier who escaped punishment by the international war crimes tribunal as a major Nazi offender, has not fared so well before a German denazification court.

An all-German court has convicted Schacht of a part in the Nazi conspiracy and sentenced the former Reichs banker to eight years imprisonment in a labor camp. At Schacht's age, 70, that is virtually tantamount to a life prison sentence.

That Schacht played a leading role in the Nazi regime, even though reluctantly, perhaps, is generally accepted by the German people, as his conviction by the denazification court reveals. Schacht conducted the financial juggling that made possible Hitler's earliest efforts to revive militarism in Germany. How he escaped punishment by the war crimes tribunal is one of the mysteries of the Nuremberg trials. It is explained only by the obvious fact that Hitler mistrusted Schacht and had the financier thrown into a concentration camp in a mass roundup of Germans following the unsuccessful bomb plot against Hitler's life in 1944.

The German court, however, has ruled that Schacht did not expire his crime against the German people merely by serving a year in a Nazi concentration camp.

Other Editorial Comments

THE SEAWAY BILL

(Duluth News-Tribune)

Once again there is a St. Lawrence waterway bill before congress. It means another battle in the long, long war to win this improvement for North America.

Several things about the newest measure seem likely to improve its chances of passage. The opposition is powerful, however, and we have learned from long experience that it is extremely skillful.

To begin with, the measure is introduced by Senator Vandenberg, whose growth in statesmanlike stature and prestige has been conceded by observers in both parties. Associated with him are Senator Ferguson, the other senator from Michigan, and the senators from Minnesota, Wisconsin and North Dakota—states with a long-time interest in the waterway. Another Republican, Senator Wilson of Iowa, also represents the section which thinks of the waterway as means of improving its transportation facilities.

Consumers are holding on to their present sugar ration stamps as long as possible because they hope to save a few pounds for canning purposes when fresh fruits become abundant in the summer. By what reasoning does the government figure that consumers will cash their next stamp, Spare No. 12, early when the consumers are now holding on to the currently valid stamp, Spare No. 11?

Obviously the only way that the sugar surplus can be moved quickly to consumer pantries is to validate an extra stamp, a bonus stamp good for a limited period of time. Since supplies are considerably greater than previously anticipated, it appears logical that additional allotments can be made to consumers under a system that would encourage them to purchase the extra sugar now.

Moving the validation date of the next sugar coupon up one month is not going to help much, particularly in view of the fact that the allotment will have to last five months instead of four.

With them are four Democrats, Senators Thomas of Utah, Johnston of South Carolina, Barkley of Kentucky and Taylor of Idaho. They prove again that this is a bi-partisan measure of interest to the country as a whole, as well as to the sections which can see direct benefits for themselves and to those which, mistakenly, we think, fear that the waterway would injure them.

Representative Dondero of Michigan, chairman of the public works committee, has introduced the same measure in the house.

The measure provides for tolls which would be used to pay the cost of the improvement.

Several other factors should improve the bill's chances of passage. It is painfully apparent that we have not yet entered an era of unthreatened peace. The waterway would do much to increase our military effectiveness. Without it we deliberately weaken ourselves.

Then, too, we find ourselves in an era when the world's hopes are pinned on a revival of international trade. Anything that makes it easier for us to trade with other nations will strengthen their commerce and bolster their living standards, and make it easier for the world to advance along the paths of peace.

It is extremely important that this measure succeed at this session of congress. It deserves all the support any American can give it.

The kiss is not a natural caress, according to psychologists. Well, let's see some one improve on nature.

If you don't think these are sober days, ask the man in the liquor store.

It won't be long until the mosquito will make the busy little bee look like a loafer.

Regardless of your walk in life, smooth running gets you there a lot quicker.

Washington: Please give the correct pronunciation of Cheyenne (Wyoming), and has the name any significance? Also, pronounce Butte, Montana.—Mrs. E. R. B.

Answer: The name is widely mispronounced "SHY-ann." Better avoid it and say: shy-EN. The name is from the Indian tribal name Shaiyena, "speakers of a strange tongue." The name Butte is French for "hillock, rising ground." The American pronunciation is: bewt (rhymes with "cute").

Wilmington: Here is an entry for your odd names derby. A farm girl in Virginia is named Elesie Eye—the only vowel and every other letter in her name is "e."—C. C. S., Los Angeles: Take a trip to the country seat in Siskiyou County and you'll find this sign: YREKA BAKERY. It reads the same backwards as forwards.—J. L. H.

Anadarok: How is Stephen pronounced, and is there more than one form of the name?—L. M.

Milwaukee: How does Mr. Peattie, the writer, pronounce his name?—Mrs. P. R.

Answer: His full name is Donald Culross Peattie. The surname is pronounced: PEET-ee.

West Hartford: I'd appreciate the meaning and correct pronunciation of the given name Anastasia.—Mrs. C. W.

Answer: It's from the Greek Anastasios, "of the Resurrection." However, Anastasia is usually interpreted as meaning "lively." The pronunciation is: AN-uh-STAY-she-uh.

PURPLE FINCH IS RED—The Purple Finch is misnamed, in Nelson's opinion. "It is really a very rosy-red color." They also have a very joyous song. Nelson reports

World Events Analyzed

BY MARQUIS CHILDS

Washington — The suspicion will not down that the session of the United Nations assembly called to consider the problem of Palestine is merely another delaying move in the chess game of power politics. Thus far there is little indication of any desire to break through the pattern of calculated frustration and defeat.

The longer we accept that pattern, the more callous we become to the spectacle of the displaced persons. (What a polite, official term to cloak infinite misery, longing, despair. The more blunted does our conscience become.)

That is perhaps the most terrible reality in the whole tragic, wretched business. It becomes a matter of ritualistic phrases, of diplomatic thrust and counter-thrust. The human beings who have struggled so long in the quagmire of indifference are lost sight of.

The process of a U-N inquiry is time-consuming. But if we were sure that a settlement would be made on the basis of an impartial inquiry, then perhaps we could afford to wait. Intimations have come, however, from British sources that a U. N. report might be ignored as readily as was the report of the Anglo-American commission which spent so much time and effort on a set of recommendations.

—A NEGATIVE ATTITUDE—

As Americans, we can hardly be proud of the attitude taken by the American delegation at Lake Success. It is an attitude of watchful waiting; on the whole, a negative attitude. So much seems to be left unsaid.

The United Nations, it will be argued, is not equipped to accept a mandate over such a troubled area as Palestine. This argument has a superficial validity. Organization of the kind of force that would make the authority of the U. N. effective has been painfully slow. The commission to create an international police force has engaged in an interminable wrangle.

Supposing the U. N. were to take over the Palestine mandate. Supposing the U. N. were to carry out a recommendation to admit 100,000 homeless Jews. It surely should be possible to do this in an orderly way with the backing of the major powers who would have a definite responsibility to see that this was done.

We have of course a more immediate responsibility. That is to make possible the admission of displaced persons who want to come to this country. William C. Stratton, Republican congressman-at-large from Illinois, has a bill which would admit 100,000 displaced persons a year for four years. This would be emergency legislation and would therefore not change in any way the existing immigration laws. An effort is now being made to mobilize public opinion behind the Stratton bill.

Each time the Palestine issue comes up, the bogey of Soviet intervention in the Middle East is raised. It is a convenient weapon for the Arab politicians who are fighting to keep the Jews out of Palestine.

But as has been pointed out over and over again, these politicians could never come to terms with Russia. They would be too fearful that their feudal privileges and prerogatives would thereby be destroyed. The group of wealthy sheiks and princes would be swept out under the city council.

If the boat owners but know

they have a friend on their side in the war with the insects. The friend is the warbler, a bird whose migratory flight at this season of the year is recounted by Walter A. Nelson of 1222 Eleventh avenue south. The warbler, Nelson reports, likes flies. They eat them and leave fewer millions of them to bother the boat painters.

FLASH OF COLOR—"An event which bird lovers look forward to each year is the warbler migration," says Nelson. "At this time there is a veritable three-ring circus under way with the flashing of their richly-colored wings and bodies through the trees and bushes."

And here's where their good turn to the yachtsmen comes in: "They fly back and forth, consuming hundreds of tiny black flies hatched out during the first warm days of spring. Other varieties scurry along the ground and scratch like little chickens for bugs or flies hidden under the leaves."

GARDENER'S FRIEND—Nelson is an expert amateur gardener, is such a man exists, and is as familiar with flowers and vegetables as he is with birds—the gardener's friend.

He reports that a few of the birds he has seen about his garden lately includes the following warblers: Nashville, Myrtle, Cape May, Magnolia, Chestnut sided, Mourning, Maryland, Black and White Tennessee, Palm and Yellow.

"Usually their visit is from a few days to about two weeks, with time of arrival varying from the 5th to the 20th of May," Nelson reports. "Then they disappear into their nesting grounds ranging from the northern United States into Canada. A few remain with us in the cities throughout the summer."

RARER TYPES—In addition to the warblers named above, Nelson says there are rarer birds that come to Escanaba at this season of the year on their migratory flights.

"The diligent observer occasionally is rewarded with a glimpse of the jewel-like Chewink or the strange-appearing orange-crowned Owl bird."

"Twice we have had the good fortune to sight the Scarlet Tanager, which is vivid red with black wings. The other day the sky was alive with newly arrived tree swallows, trying to outdo each other in their aerial acrobatics."

"During the past few years we have positively identified some 90 varieties in our garden," Nelson said. "Visits of the birds can be encouraged by placing a bird bath, berry-bearing trees and shrubs in your back yard."

AMATEUR ORNITHOLOGIST—All you need to become an amateur ornithologist is a liking for birds, and some spare time to look at them. Nelson says that a good bird guide illustrated in color, and a pair of field glasses, are a great help in identifying the different varieties.

"During the past few years we have positively identified some 90 varieties in our garden," Nelson said. "Visits of the birds can be encouraged by placing a bird bath, berry-bearing trees and shrubs in your back yard."

PURPLE FINCH IS RED—The Purple Finch is misnamed, in Nelson's opinion. "It is really a very rosy-red color." They also have a very joyous song. Nelson reports

The Only Humor in the Situation

INTO THE PAST

Ten Years Ago

LANSING—Dr. Eugene B. Elliott, state superintendent of public instruction, disclosed today Governor Murphy has given "no intimation" that he was interested in a legislative proposal that the state would be an executive mansion for him.

Widespread interest is being shown by Escanaba residents in the City Beautiful contest, which is being conducted this summer by the Escanaba Chamber of Commerce with the cooperation of the Escanaba Woman's club.

Administrative and commercial salaries of Escanaba will amount to \$27,420 according to a report drawn by the City Manager George Bean for members of the city council.

Twenty Years Ago

ST. JOSEPH, Mich.—The state's suit to break up the House of David colony and wrest from Benjamin Purnell, its temporary leader, its millions of dollars of property he is alleged to have fraudulently accumulated opened in the Berrien circuit court this afternoon with sharp interchanges between counsel.

Kiwanians from Ironwood, Sault Ste. Marie, Marquette, Escanaba, and Sault Ste. Marie will meet here Tuesday, May 24 for their annual sub-district conference.

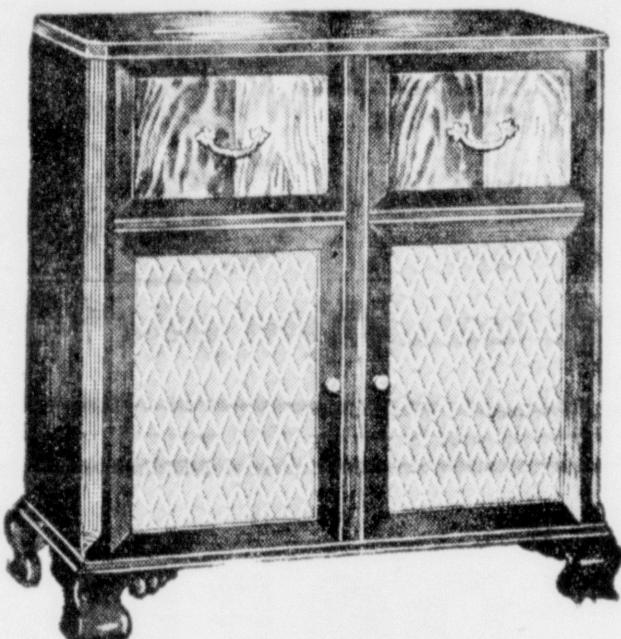

Administrators of the nutrition clubs of three communities who have completed a year's work under the leadership of Miss Margaret Harris of the State College extension staff.

NOGALES, Ariz.—Senorita Ernestine Calles, daughter of Mexico's president will wed Thomas Arnold Robinson of New York and Alma, Mich., tomorrow night aboard the famous old presidential "yellow special" in Nogales, Sonora.

Nancy C. Coon Becomes Bride Of John Cleary

Two prominent Escanaba families were united in the wedding ceremony of Wednesday morning at which Nancy Claire Coon, daughter of Commander and Mrs. Marvin L. Coon, became the bride of Gerald John Cleary, son of Mr. and Mrs. Gerald J. Cleary.

The marriage service, at which Rev. Fr. M. B. Melican officiated, took place at a nine o'clock nuptial high mass at St. Patrick's church. Spring flowers of pastel shades were arranged on the altar and marked the entrance to the sanctuary.

The bride, who was escorted to the altar by her father, who gave her in marriage, wore a gown of white satin, the fitted bodice distinguished by a net yoke, marked by satin bows. Her fingerless veil of white illusion was gathered to a Juliet cap of satin. She carried a bridal bouquet of gardenias.

Miss Jacqueline Courneene, her only attendant, wore aqua moire taffeta, with a white Dutch cap and lace gloves, and pink and white roses were used in her bouquet.

Both mothers wore navy ensembles complemented by orchid corsages.

Warren P. Cleary, of Notre Dame, Ind., was his brother's best man.

St. Patrick's choir, with Miss Eva Cossette, organist and director, sang the music of the wedding mass. At the Offertory, Mrs. John Canavan, sister of the bride, sang Schubert's "Ave Maria," and at the Communion, Frank Hirn sang Guilmant's "Ave Verum." The traditional processional and recessional were played by Miss Cossette.

A wedding breakfast for thirty guests was served at 11 o'clock at the House of Ludington. White tapers in crystal candelabra, in an artistic arrangement with bouquets of spring flowers graced the table. The three-tiered wedding cake was cut by the bride with the sword which Commander Coon carried in World War I and World War II.

The couple left on a wedding trip through Upper Michigan and Wisconsin and, upon their return, will be at home at the Terrace Apartments.

The new Mrs. Cleary is a graduate of St. Joseph's high school and is a registered nurse. She trained at the United States Naval hospital in St. Albans, N. Y., as a member of the United States Cadet Nurse Corps. Her husband who is with Employers Mutuals, enlisted in the United States Marines when he was a student at the Michigan College of Mining and Technology, at Houghton, and served with the rank of Lieutenant, in the Pacific theatre during World War II.

Industry Looks at
Our Town

Maybe you read how a group of industrial experts have decided that the small town is the place for industry—not big cities. Reasons they give are better housing, pleasanter living, and more opportunity for wholesome recreation.

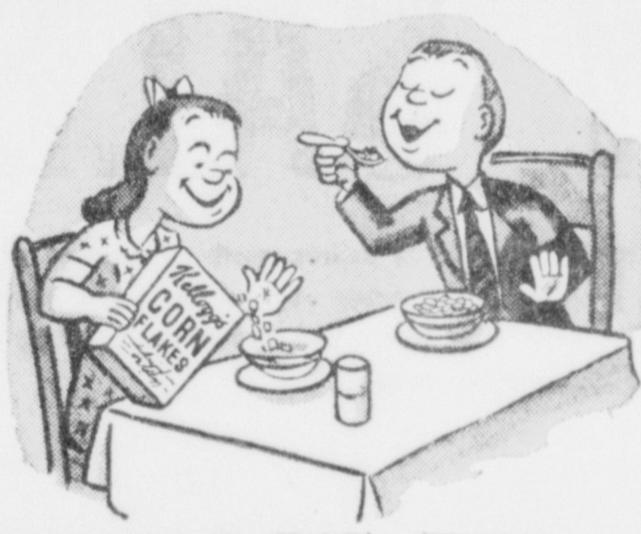

Well, looking around our town I'd say that was about right. Most of us own homes, and keep them looking nice; we enjoy each other's company; and our recreations are mostly simple outdoor sports, and in the evening a mellow glass of beer with pleasant company.

City Briefs

PFC George Dupont returned yesterday to his post with the Marine corps at Camp LeJeune, N. C., after spending an eight-day furlough with his parents, Mr. and Mrs. George Dupont.

Mr. and Mrs. Charles Fox, of Pontiac, who have been visiting here with relatives and friends, have returned to their home. They were accompanied by Mrs. Elizabeth Fox who will visit for some time in Battle Creek. Enroute they will visit relatives in Petoskey.

Miss Dorothy Schultz has left for Lansing where she is attending a school of instruction for AAA secretaries.

Beaudin was arrested the day previous by local state troopers after he, according to the complaint, had presented a check for a small amount at the Eat Shop. A checkup revealed that Beaudin was wanted in several cities in this area for similar activity.

According to complaints he wrote checks for varied amounts on banks at either Newberry or St. Ignace. Checks in the aggregate are said to amount to over \$500. Complaints of his activity have come in from St. Ignace, Newberry and Sault Ste. Marie. Beaudin gave his occupation as a dealer in smoked fish.

Fire Damages
Fish Warehouse
At Local Harbor

A frame building along the Manistique harbor, occupied as a fishing warehouse by William Kleinkne, was damaged by fire Wednesday noon.

The fire, believed to have started from a grass fire alongside the structure, had gained considerable headway when it was discovered, but it was quickly brought under control. One side of the building was badly damaged and there was some damage to nets and other fishing gear, the extent of which has not yet been determined.

The structure was owned by the Coffey Fish company.

Manistique Girl
Scout Council
Has Get-together

The Manistique Girl Scout Council and leaders held a get-together in the parlors of the Presbyterian church Tuesday evening. It is planned to make it an annual event.

After the singing of the Girl Scout grace, dinner was served by the Council with Mrs. J. C. Quick as chairman. The table was attractively decorated with pine boughs and yellow tapers. The Girl Scouts trefoil, bearing pictures of camp scenes, served as place cards and added to the table decorations.

After the dinner Mrs. Earl LeBrasseur, commissioner, presided at an informal meeting introducing those present. The leaders were presented gifts in recognition of their services. Plans for summer camp were discussed, and a schedule of training courses for leaders and camp counselors was announced. Anyone able to attend any of these courses was offered the opportunity and urged to do so.

Following the singing program, Mrs. Lottie Woodford gave an informative report of the regional committee meeting which she attended in Chicago last month. "Strive to make Scouting a 'way of living' was the theme of the meeting," she said. "Scouting should be more than a meeting a week. It should help the girl become a better citizen in the church, home and community."

At a short business meeting the council voted to follow its usual custom of paying \$2 on the first two camp weeks of each Girl Scout attending Timber Trail.

Red Cross Official Visits Manistique

Hermon F. Tonne, of St. Louis, area supervisor of the American Red Cross, was in Manistique Tuesday conferring with local chapter officials.

He praised the local effort for the capable way its affairs have been handled and the way the recent drive was handled.

Schoolcraft county exceeded its quota by more than \$200 it was revealed. The official said he plans to pay another visit here in the near future.

AAA Chairman Urges All
Growers To Attend
Escanaba Meeting

Norman Stauffer, Schoolcraft county AAA chairman, has issued a call to potato growers in this area, urging them to attend a potato growers' meeting to be held in the court house at Escanaba Thursday evening, May 22.

The principal business of the meeting, Stauffer said, will be nominating members to the North Central potato committee which will administer the potato marketing order No. 60.

Order No. 60 provides a method of regulating by grade, size and quality all shipments of potatoes grown in Michigan, Wisconsin, Minnesota and North Dakota. It was issued in 1942 but has been inoperative during the war years. An attempt will be made to put this order into effect this year in an effort to prevent a surplus of potatoes and consequent waste such as was seen last winter when tons of potatoes had to be destroyed or converted into stock feed. In carrying out the order small and low grade potatoes will be kept off the market, Stauffer explained.

"Potato producers and handlers in Schoolcraft county are vitally concerned in the future potato market and their attendance of the Escanaba meeting is urgent," said Stauffer.

At a short business meeting the council voted to follow its usual custom of paying \$2 on the first two camp weeks of each Girl Scout attending Timber Trail.

ONLY TOBACCO LEVY LEFT IN REVENUE PLAN

(Continued from Page One)

"because we've got to have the money" and he predicted there would be a good chance to pick up enough votes to pass the liquor measure.

The tobacco tax, which now goes to the House to clash with a two-cent a package cigarette tax in that chamber, would levy a three-cent a package tax on cigarettes and three-tenths of a cent on each cigar, or ounce or less of tobacco.

In the House predictions were made that only a cigarette tax for the payment of the bonus would succeed in the 1947 legislative session.

There was no immediate decision in the Senate as to what course leaders would take in their avowed determination to balance the budget and Milliken warned the chamber again that even with all the measures facing them they would need \$35,000,000 more in new revenues next year, just before an election, to balance the budget in the second year of the biennium.

A fourth plank in the budget-balancing drive, to permit the state to take one mill of the local property tax, was buried in committee yesterday.

Senators expressed strong sentiment in debate today for the passage of no taxes except the tobacco tax to finance the bonus, until "we know exactly how much money we need."

Two Conservation Commissioners Are Chosen By Sigler

Lansing, May 14 (AP)—Richard H. Fletcher, Bay City oil man, and Harold W. Glassen, Lansing attorney, were appointed to the state conservation commission for six-year terms by Governor Sigler to-day.

The dinner program included selections by a barber shop quartette composed of E. E. Petersen, Rupert Prinski, Lowell Sundstrom and Nick Bink.

bills in the administration foreign program. Both have now been approved by both Houses of Congress in some form.

The second is the bill to grant \$400,000,000 of economic and military aid to Greece and Turkey. A conference committee reached agreement yesterday on a compromise version, and the house will probably act upon it tomorrow, then the senate.

Cash Wheat Buying By CCC Brings On Uptick In Prices

Chicago, May 14 (AP)—New reports that the Commodity Credit Corporation was buying cash wheat for export to Germany caused a sharp upturn in wheat futures on the Chicago board of trade today.

The May wheat contract spurted 10 cents, the limit permitted in one session, to close at \$2.77 1/2 a bushel. Similar 10 cent limit gains were scored by May wheat at Kansas City and Minneapolis. Wheat for delivery later this year was strong, but had smaller gains.

Buying of cash wheat by the CCC came as a surprise to the grain trade. Brokers had believed the agency would not buy any more wheat until the new crop was harvested in June and July.

Government Winds Up Fraud Case Of Sergeant-At-Arms

Washington, May 14 (AP)—The government wound up its three-day prosecution of Kenneth Romney, former House sergeant at arms, today after an FBI agent testified that Romney admitted having lost \$50,000 in Florida real estate ventures with former Rep. John H. Smithwick of Florida.

Pairings in the other foursome matches will be:

Ter Bishop and Skee Riegel, U. S. vs. Joe Carr and Cecil Ering, Britain.

Fred Kammer, Jr., and Willie Turnesa, U. S. vs. Alex Kyle and James Wilson, Britain.

Dick Chapman and Frank Stranahan, U. S. vs. Ronnie White and Charlie Stowe, Britain.

Yanks Slice Etten, Silvestri From Roll

New York, May 14 (AP)—The New York Yankees sliced their playing roster one below the limit today by paring off first baseman Nick Etten and catcher Ken Silvestri.

Etten, recently returned by the Philadelphia Phillies, was assigned to the Newark club of the International league and Silvestri was shipped to the Kansas City Blues of the American Association. The contracts of both men were assigned outright to the minor league clubs.

HAMTRAMCK GIVES UP

Detroit, May 14 (AP)—After a two-week experiment, merchants of suburbia in Hamtramck announced today they are scrapping the Newburyport plan for cutting prices 10 per cent.

Officials said the program, adopted by many communities throughout the nation, was impracticable because most wholesalers and manufacturers had not followed retailers in reducing prices.

MEDAL FOR MURRAY

Washington, May 14 (AP)—The war department awarded its medical merit today to Philip Murray, CIO president, for his services in the labor field during World War II.

GLADSTONE

CONTEST COMES TO END TODAY

Bird House Winners To Be Decided Over The Weekend

The bird-house contest being sponsored by the Minnewaska Sportsmen's club closes today and entries should then be taken to the Val-Hoover Sport shop for judging.

All entries must be at the sport shop by Saturday. Judging will be done over the weekend by a group of judges to be named by the club.

Prizes will be awarded later at a formal hearing of a complaint against the commission registered by the citizens committee and charges prepared by the supervisors' highways and bridges committee.

Charges against the commission at that time were for negligence, faulty judgment and discrimination. At the hearing, the board of supervisors voted 7 to 5 to retain the commissioners.

Commission members were John Gatis, Rupert Nelson, Milton Touzel.

Tuesday, May 13, the center of interest again swung to the road commission when Rupert Nelson, member of the commission for the past year and a half, handed in his resignation to the board during their morning session.

The board accepted it and immediately named William Niemi to fill the vacancy.

During the afternoon session Tuesday, H. L. Dunklee again appeared before the board with a number of petitions asking the board to reconsider their action taken at the formal hearing held in March.

The body of the petitioners stated that the signers were cognizant of the proceedings of the supervisors during the formal hearing and that they, the signers, believed that evidence produced during the hearing showed "malfeasance" on the part of the road commission. They said further that they felt the verdict of the supervisors at that time was against the great weight of evidence produced.

During his appeal to the board Tuesday, Dunklee said that the roads in Alger county were bad enough so that "a blind man" could tell when he entered or left the county.

After hearing Dunklee and receiving the petitions, the board decided to file the petitions.

"Co. D turned track men today to take part in the new physical fitness test at Camp Sykes stationed at Kwangju, Korea. Most of the men seem to be in good shape and set some good records.

One of the most spectacular being Haglund's 300-yard dash in 43 seconds.

A picture of Haglund accompanied the article.

Alden is a son of Mr. and Mrs. Lloyd Haglund, city. In addition to his high school athletics, he played with the local baseball team, doing a good job of pitching and fielding.

SHAW NOT WORRIED

Indianapolis, May 14 (AP)—W. H. Shaw, Indianapolis Motor Speedway president who made the annual Memorial Day 500-mile race look easy by winning it three times, today glanced over an entry list that showed only six or seven Speedway-tempered drivers, but said he was not worried. "Every driver in the annual 500-mile race here on May 30 will be a man of proved ability," said

Three Convicted Tuesday For Fish Lau Violation

Chicago, May 14 (AP)—New reports that the Commodity Credit Corporation was buying cash wheat for export to Germany caused a sharp upturn in wheat futures on the Chicago board of trade today.

The May wheat contract spurted 10 cents, the limit permitted in one session, to close at \$2.77 1/2 a bushel. Similar 10 cent limit gains were scored by May wheat at Kansas City and Minneapolis. Wheat for delivery later this year was strong, but had smaller gains.

Buying of cash wheat by the CCC came as a surprise to the grain trade. Brokers had believed the agency would not buy any more wheat until the new crop was harvested in June and July.

A fourth man, who was charged Monday with having a spear in his possession near Seven Mile Creek, pleaded guilty in justice court and received a fine of \$4.40.

Girl Scouts Urged To Register For Summer Camp Now

Munising—Two men received a jail sentence of 30 days and one man was fined \$10 and costs of \$13.60 as a result of a conviction brought by a jury in justice court Tuesday on charges of aiding in taking trout by use of spears. Those jailed were: Arthur Bower and Theodore Eugene Half. Harry Zacharias received the fine.

Bower, Half and Zacharias upon arraignment Monday had pleaded not guilty to the charge. All three were given fines Tuesday but Bower and Half chose the alternative of the 30 day jail sentence.

A fourth man, who was charged Monday with having a spear in his possession near Seven Mile Creek, pleaded guilty in justice court and received a fine of \$4.40.

More Stores Accept New Closing Hour

Munising—Fifteen more Munising merchants agreed to close their doors at 5:30 p. m. instead of 6 at a meeting of the merchants and the merchant committee held at the Chamber of Commerce, Tuesday evening. Lew Merwin, secretary announced. Three local stores, Tonelli and Rupp, the Ben Franklin store, and the Flower shop had accepted the new closing time. May 1 after signing a petition circulated by the merchants committee at the meeting.

Local girl scouts who plan to attend the camp must register by June 1 in order to have a choice of camping weeks, she stated. After June 1, the girls will probably find it difficult to obtain an open date at the camp for their vacation, she remarked.

Opening, girls led by Mrs. Albert Korvela; Songs and games, group under direction of Mrs. Carl Harthen; Brownie stories, Mrs. Eugene Williams, registrar, announced yesterday and urged scouts to register as soon as possible.

Local girl scouts who plan to attend the camp must register by June 1 in order to have a choice of camping weeks, she stated. After June 1, the girls will probably find it difficult to obtain an open date at the camp for their vacation, she remarked.

CONFERS HERE

Munising—Herman Tonnie, field representative for the mid-western area of the American Red Cross, working out of St. Louis, Mo., arrived yesterday to confer with George Goss and other members of the local Red Cross chapter.

Tonnie makes periodic visits to chapters throughout his area in the interest of aiding and advising local officials in Red Cross work.

ESKYMOS TRAIN IN COLD WEATHER — Due to circumstances beyond his control, the weatherman has not been too popular these alleged spring days. But despite cold weather, the Escanaba high school track team has been working out regularly. Here, you see Coach Jim Rouman giving some pointers to three of his cohorts under wraps. The fellow at the left who is mostly under wraps (including stocking cap) is Warren Gustafson, sophomore, first-year track man and 1946 football ace, who heaves the shot and runs the hurdles. The serious-looking athlete next to him with jacket slung over one shoulder is Bob Judson, junior, who placed third in the shot put in Manistique. Wearing a hunting cap to ward off chills, Coach Rouman is giving instructions to Dave Walsh, junior, at the right. The Eskimos will compete in the district track meet in Menominee Saturday.

The Sports Parade

BY JIM WARD

The Bay de Noc Baseball league, composed of teams representing Nahma, Cooks, Fayette, Garden, Rapid River, Perkins, Little Lake and Rock and the newest diamond circuit in the Upper Peninsula, has been officially organized and will open its schedule Sunday, June 1.

Managers of the eight teams in this new league, which shows promise of developing into the fastest little loop in the U. P., pondered for some time before coming up with what all baseball fans in this area will agree is a very appropriate name for the circuit.

Feeling the weight of baseball destiny upon their shoulders, the bigwigs at first chose "Upper Peninsula minor league" but when the consensus was that "minor" if not exactly a misnomer, at least intimated something inferior, which the new league certainly is not, the managers declare.

Thus, sentiment swung to a more distinctive name, one which distinguished it from all others and was symbolic of the locale represented in the league. Since the eight towns in the loop are on, near or at the apex of Stonington and Garden peninsulas, which border Little Bay de Noc and Big Bay de Noc, such titles as Mid-Peninsula and Bi-Peninsula were suggested.

But this became quite involved and didn't quite strike the right note. The managers were on the right track but hadn't quite arrived at the station. Whereupon someone suggested simply "Bay de Noc" and everybody perked up.

2 PREP TILTS SLATED HERE

Eskimo, Iron Mountain Friday, St. Joseph's, Manistique Saturday

Two high school baseball games are on tap here this week, the Escanaba-Eskimos meeting Iron Mountain in a return game tomorrow afternoon and the St. Joseph's parochial school nine battling Manistique Saturday afternoon. Both games will be played at City Diamond.

St. Joe players will practice at 2 this afternoon.

Escanaba has won one and lost one, and St. Joe is out to register its first triumph, having lost to Negaunee here last Saturday afternoon. The Escanaba-Iron Mountain tilt will start at 4:15, and the St. Joe-Manistique game Saturday will start at 2.

Coaches Jim Rouman and Alvin P. Ness have not yet announced their starting lineups.

Giants Make It 5 In Row Over Cards

St. Louis, May 14 (P)—The New York Giants made it five straight over the St. Louis Cardinals by winning today's finale of a two-game series 6-4.

Larry Jansen, rookie righthander who won 30 games for San Francisco of the Pacific Coast League last year, made his second start for the Giants, and although he needed help from Ken Trinkle in the seventh, was credited with his second win. Murry Dickson, first of four Card hurlers, was the loser, dropping his fifth decision against no triumphs.

The Cards drew first blood with a two-run outburst in the first frame, but the Giants came back with a six-run bombardment in the fourth that shelled Dickson from the mound.

New York .. 000 600 000—6 11 0
St. Louis .. 200 002 000—4 8 0

Jansen, Trinkle and Cooper

Burkhardt, Brazle, Munger and Garagola.

Detroit Wins, 3-2; Red Sox Whip Chicago, 5-1

LATE RUN ENDS PITCHING DUEL

Hutchinson Beats Nats For His 5th Straight Triumph In 1947

Washington, May 14 (P)—The Detroit Tigers pushed over a ninth inning run tonight to break up a pitching duel between Freddy Hutchinson and Mickey Haefner and defeat the Washington Senators, 3 to 2, for their fifth straight victory.

Hutchinson won his fifth successive game after losing his first start of the season, limiting the Senators to six hits.

Eddie Lake walked with one out in the ninth and George Kell singled him to third. Lake scored as Ray Cullenbine forced Kell.

Washington took a 2-0 lead in the third inning on three singles and a walk, but the Tigers tied it up in the sixth on Pat Mullin's triple, Hoot Evers' double and Birdie Tebbets' single.

There it was, as plain as the nose on your face, as the saying goes.

Big Bay de Noc, U. P.'s newest league, rang the bell. It was appropriate since all towns in the wheel have much more than a speaking acquaintance with both Bays de Noc.

Cooks, Garden and Fayette are on Garden peninsula, the latter two being right at the edge of Big Bay de Noc. Nahma is at the end of Big Bay de Noc between Garden and Stonington peninsulas. Rapid River is at the end of Little Bay de Noc. Perkins and Rock are just a stone's throw away. And, as for Little Lake—well, you have to throw the stone a little harder.

Thus endeth today's geography lesson!

Other pertinent business transacted at the meeting was the reduction of the entry fee from \$25 to \$15—a very pertinent item. And George Roberts, Cooks, the loop secretary-treasurer, was authorized to buy a suitable trophy to be awarded to the winning team. That is pertinent, also.

Standard admission for a single game was set at 40 cents, and it was decided that if a team manager fails to notify the opposing team of weather conditions before 11 a. m. on the day of the game, he shall forfeit \$10 to the "offended" team and be required to deposit another \$10 with the league treasurer to forestall another such weather report failure.

Thus, with a motion by Joseph Deloria, Garden's musical manager, that the meeting end with a song—it did! And the first chapter in the Bay de Noc baseball league's history was written.
